FUTRUS[®] OVERBED TABLES CHOSEN BY AMERICA'S LEADING HOSPITAL FOR CANCER CARE

The Futrus[®] Overbed Table has been chosen by the Memorial Sloan Kettering Cancer Center, the number one hospital for cancer care in the United States. Mark Allen, President of Futrus[®] adds, "We are extremely proud to have been chosen by such a renowned cancer center, which is at the forefront of patient care." The Futrus[®] Overbed Table is the ideal solution for any hospital cancer center or area of high-risk infection transmission, as each model is designed with infection control in mind.

The Futrus[®] Overbed Table has been designed by Perkins Eastman and customized by Futrus[®]. Each table features a sleek, DuPont™ Corian® solid surface tabletop ergonomically shaped for patient comfort. The seamlessly integrated no drip edge, helps to contain any liquid spills.

Futrus[®] Overbed Tables can be customized with a variety of tabletop shapes and base designs. The tabletop is available in over 120 DuPont™ Corian® solid surface colors and patterns and the color and style of the base is also customizable, to compliment any patient room interior. Additional storage can be added with a dual sided vanity compartment or utility baskets. For additional information, visit futrus.com.
